## Australian Tarmac Rally Championship Touring Event

The ATRC Tour events are tailor made for car enthusiasts who love driving fast on open, twisty and challenging mountain roads. Whether your car is a classic old-timer, a modern, technologically advanced supercar, or something in between, if it's in good condition and capable of a fast fang (or at least a "spirited" drive), then you are very welcome.

Tour entries are split up into Novice/Cruise, Intermediate and Advanced, and each group has their own specialist high performance driving instructor and tour leader. The tour is hosted by Stephen Whyte from WD Motorsports as the event coordinator.

If you're new to the world of high speed, closed road driving, the leaders will help guide you through various aspects including suspension, tyre and handling setups, braking, cornering, forward vision and vehicle knowledge. Even if you're an old hand, there's always something new to learn, or maybe you just want to practice your high speed driving skills and have a ball in the meantime.

For those who haven't done a touring event before, it's all on closed roads and is fully legal, sanctioned by police, local councils and other authorities. Racesolutions and the very capable Martin Doxy provide experienced and highly efficient rescue & recovery crews and the whole thing is run very professionally. All cars are tracked by GPS using Rallysafe units (provided free of charge) and all will be provided with radios to communicate with each other.

So if you want a good, legal, fast, safe and fun drive on closed roads with great people who don't stop smiling the whole weekend, please think about joining in.
